MENTION

the scam to your friends and family.

**LEGITIMATE AGENCIES NEVER ASK FOR IMMEDIATE PAYMENT
AND NEVER COME TO YOUR HOME TO COLLECT CASH.**

PATRICK J. RYDER
 COMMISSIONER OF POLICE

POLICE ALERT:

PREVENTING AUTO CRIME

THE GREAT NECK PENINSULA

THERE HAS BEEN A RECENT INCREASE IN THEFTS FROM VEHICLES AND STOLEN VEHICLES IN YOUR AREA. TOGETHER WE CAN COMBAT THESE CRIMES:

Stats & Tips

- o Themajority of vehicles that were stolen were left unlocked with the keysinside
- o **Never** leave your vehicle running while unattended
- o Always remove items ofvalue from your vehicle
- o The majority of auto related crime is **preventable** - by locking your vehicle and taking your key / fob with you **every time** you parkyour vehicle

*TRUST YOUR
 INSTINCTS!*
 IF YOU SEE
 SOMETHING
 SUSPICIOUS
CALL 911
 IMMEDIATELY

NASSAU COUNTY POLICE DEPARTMENT
 1490 FRANKLIN AVENUE, MINEOLA, NY 11501-4801

LOCK YOUR VEHICLE

THE MIRROR SCHEME

Did you know? Thieves do!

Many vehicles come equipped with side view mirrors that retract when the vehicle is locked. If the vehicle is left unlocked, the side view mirrors stick out, making it vulnerable to theft by indicating to thieves that it was left unlocked.

**DO NOT LEAVE KEY
FOBS IN YOUR VEHICLE.**

LOCK IT OR LOSE IT

- Do not leave spare keys or valet keys, inside the vehicle
- Do not leave your vehicle running and unattended
- Do not leave valuables visible

**Public
Advisory**

SAFEGUARD YOUR CAR

... and its occupants

Car theft is big business - billions of dollars a year.

Cars and car parts are in steady demand - by thieves. You and all members of your family can help prevent car theft - and keep safe - by understanding how and why they are stolen.

PATRICK J. RYDER
COMMISSIONER

Vehicles are stolen for parts, insurance fraud, retagging, exporting and joy riding. To help prevent the theft of your vehicle, the Nassau County Police Department suggests using the "layering" approach:

Layer 1: Use common sense: Parking in well lit areas , removing your car keys... makes it more difficult for the car thief.

Layer 2: Use visible and audible devices. Having audible alarms , steering wheel locks, column locks, brake locks, wheel locks, theft decals or vehicle identification number etched windows , gives your car has a much better chance of not being taken.

Layer 3: Use vehicle immobilizers : Smart keys, kill switches, starter, ignition and fuel disablers make it harder for the thief to drive away with your car.

Layer 4: Put in a tracking system: Systems such as On-Star (a global positioning system) or Lo-Jack (a radio directional finder) can help locate your car if it is stolen.

HERE ARE SPECIFIC TIPS FOR PREVENTING CAR THEFT:

TIP#1:

Do not leave your car unattended.

- According to the law, the owner or authorized driver of a car may not leave it unattended without turning off the ignition and removing the key.
- If you have a "keyless" car, take the transponder with you when you leave the vehicle .
- Close all windows and lock all doors. Plus, never leave your car running unattended even if you are just going in someplace for "a moment" or "letting it warm up". A running car is an easy opportunity for any thief.

TIP#2:

Do not leave licenses , registration cards or other identifying papers in the car. If keys have punch-out numbers, keep them at home for future reference . Remember to take out valet keys from the glove box and only surrender this key when having your vehicle valet parked. Remove the factory touch code from trunk, car book or glove box for vehicles with touch pad locking. If these items are left in car,

TIP #2: (continued)

thieves can use them to sell your car if stolen or to impersonate you if they are questioned by the police. In addition, identifiable material may help thieves discover the owner 's residence and commit burglary as well.

TIP#3:

Park your car in the garage or behind a locked gate. If you do not have either of these deterrents , pull it in your driveway as far you can. When parking your vehicle , turn the steering wheel all the way to the right or left and apply the parking brake. This will deter a tow vehicle from towing your vehicle out of a parking spot without drawing a lot of attention. Consider adding a motion detector to the outside of the house. Put an alarm inside the car, especially if it is parked in an apartment lot or on the street. All these create other levels of difficulty for the thief who is interested in taking the easiest and quietest route to stealing a vehicle .

Put an alarm inside the car, especially if it is parked in an apartment lot or on the street.

TIP#4:

Get an automobile security-tracking device for your car such as Onstar or Lojack. You might consider labeling the car to deter a thief from taking it. Since certain thieves know how to disable such systems, label the car with the name of a different tracking company since you do not want to advise a thief of the type of security system you have.

TIP#5:

Consider using these other anti-theft devices:

- Ignition Cut-Off:** A key-operated or hidden manual switch that interrupts the power supply from the battery to the ignition .
- Fuel Cut-Off:** Integrated into the fuel line, this device prevents the flow of gasoline once the fuel in the gas line is used. Only a special key deactivates the cut-off.
- Ignition Column Guard:** This security device can provide protection to the ignition starting system. The device fits around the steering column and over the ignition starting system.

TIP #5: (continued)

- **Hood Lock:** A secondary hood lock should be installed to prevent access to the power source, battery or siren, for an alarm system, via a key-operated bolt, which is accessible from inside the car.
- **Door Locks:** Visible inside door lock buttons should be smooth and tapered.
- **Radio Security:** Slide mount removable radio devices are recommended. The idea is simple: If you do not want it stolen, take it with you.
- **Anti-Theft Steering Wheel Lock:** Locks on and prevents steering wheel from turning. Its high visibility deters theft.
- **Guard Plate:** Install a guard plate over the trunk lock with carriage bolts to protect the trunk cylinder.
- **Trunk Lock:** As an auxiliary or secondary locking device, a heavy duty chain lock may be installed inside the trunk and is key-operated.
- **Wheel Locks:** This device replaces one lug nut on each tire and is key-operated. (Special locking devices are available for certain hubcaps such as the spoked hub, etc.)

TIP#6:**Keep the following items in your vehicle for emergencies:**

Screwdriver ; Pliers; Flares ; Flashlight ; Jack/spare tire ; Battery jumper cables and procedure for boosting; Lubricant for locks; Lock de-icer; Lug wrench ; Auto insurance card; First aid kit and blanket; Phone numbers of 24-hour tow and repair service ; Sign: "Please Call Police" in light-reflecting letters approximately 12" high; Emergency tire repair kit and air compressor ; Disposable camera or cell phone to be used as a camera .

TIP#7:**Protect yourself and your family when leaving, entering or driving your car:**

- Maintain your vehicle to prevent breakdowns thereby avoiding vulnerable situations. Check the tire pressure and wear; oil and brake fluid levels ; battery fluid; and radiator water level.
 - Know the make and model number of the car you drive.
 - Carry a cell phone or other communication device (do not leave in your car).
 - Park in a well lit area.
- If you park in a commercial lot or garage, leave only the ignition key with the attendant.
- Remain alert to your surroundings.
 - Have your car door key ready in your hand and look for potential danger.
 - Keep your car keys on a separate key ring from your house keys.
 - Lock your doors and windows as soon as you enter the car.
 - Try not to travel alone.
- Do not get locked between autos . Leave room between your car and the one in front of you. If you can see the tires of the auto in front, you will be able to drive around it.

If you think you are involved in a staged auto accident, turn on your 4-way flashes, and drive to an open gas station or police station. Call 9-1-1 on route.

TIP#S:

- **Protect your children and pets:** Do not leave them unattended in the car.
- **Protect your valuables:** Put packages and valuables out of sight: expensive items in full view invite theft.

TIP#9:

Mark your vehicle . Ownership is often difficult to prove because experienced thieves can remove manufacturers ' identification numbers completely. Inscribe the car with the Vehicle Identification Number by etching it in several hard-to-find spots, using an engraving tool on each component part. Write your name in crayon under the hood or trunk. The latest type of marking system is called , "Data-Dot", that applies microscopic numbers that appear with a special magnifier showing an assigned number specifically designated to your vehicle . This system assists police in identifying vehicle parts and components. Visit www.Data-dot.com.

Inscribe the car with the Vehicle Identification Number by etching it in several hard-to-find spots, using an engraving tool on each component part.

TIP #10:

If your car alarm goes off, do NOT take action. Call 911 and then:

- Observe behavior around your car
- Take description, license plate numbers, etc.

TIP #11:

If your car is stolen:

- Report theft to police. Police need to know specific information about your car.
- Notify your insurance company.
- False reporting of vehicle theft is a Class A Misdemeanor pursuant to section 210.45 of the Penal Law of the State of New York and can be punishable by a fine or imprisonment. Insurance Fraud of a vehicle worth in excess of \$1,000.00 is a Class E Felony.

MAKE YOUR HOME SECURE

Burglary Prevention Checklist

"MAKE YOUR HOME SECURE: Burglary Prevention Checklist" offers general tips and suggestions.

In an emergency, dial 911.

Burglary is a major crime. It is a significant threat to all homeowners. Statistics show that most burglaries occur in single home residences, but multi-family dwellings such as condominiums and apartment buildings are also at risk.

Having a burglar alarm is a good deterrent but it is not enough. You can reduce the risk of being the victim of a burglary by using the "Burglary Prevention Checklist" inside.

PATRICK J. RYDER
COMMISSIONER

Burglary Prevention Checklist

Secure the *outside* of your home.

- Lock doors and windows when leaving the house.
- Lock rear gates when not in use.
- Do not let people know you are not home by posting on the Internet or on voicemail.
- Prune overgrown shrubbery that hides windows and doors.
- Make alarm stickers visible on doors **and** windows; they should be easily seen from the street and sidewalk.
- Keep a car in the driveway, if possible.
- Give the appearance that you own a guard dog. Place a big dog bowl or dog chain on your property.
- Do not leave packages in the doorway all day; arrange for a delivery time when you or a neighbor can pick them up.
- Do not leave garbage cans at the curb all day; if you cannot stay home, use plastic bags instead of garbage cans.

Help prevent your home from becoming a target. Walk around your home and do a thorough security inspection.

Burglary Prevention Checklist *(cont'd)*

Secure *points of entry* into your home.

- If possible, do not use an outside mailbox. Insert a mail slot in the front door or garage.
- Install outside motion detection lights at the corners of your home. Make sure they are high enough so that an intruder is unable to unscrew the bulbs.
- Do not have a front door with side glass panels. It is easy for an intruder to break the glass, reach inside and unlock the door.
- Have** outside doors of solid core or metal clad; **steel doors** and frames are the most secure while **hollow doors with** wood frames are easily kicked in.
- Use dead bolts with** one-inch throw since the **mechanism is difficult to pry** or jimmy open.
- Ensure that sliding glass doors and** windows **have metal pins or a metal bar installed so that they can not be pried open.**
- Set inside lights on timers to turn on at dusk.**
- Do not place **valuables in bureau drawers in the** master bedroom. This **is the first** place a **burglar** looks. Lock valuables in the **attic or basement.**
- Mark valuables with **your driver's license number to make them** easy to trace. **Take pictures** of them.
- Even if you have **an alarm system, be alert when entering or leaving your home. If you notice someone or something suspicious, call 911 immediately.**
