

## Chapter 131. Noise

### § 131-2. Construction work; loading and unloading; permit required.

[Amended 10-26-1993 by L.L. No. 27-1993]

- A. No person shall load or unload from or upon any truck or other vehicle in the village, nor move any equipment, furnishings or other heavy or bulky objects to or from any location in the village between the hours of 11:00 p.m. and 7:00 a.m. on the succeeding day, except with a permit from the Mayor.
- B. No person shall perform any construction work or activity in the village which generates any noise audible outside the boundaries of the property where such work or activity is being conducted on weekdays earlier than 8:00 a.m. or later than 8:00 p.m., or on Saturdays, Sundays or holidays earlier than 10:00 a.m. or later than 6:00 p.m., except for such work or activity required for an emergency, with a permit from the Mayor.
- C. An application for a permit required by this section shall be made to the Mayor, in writing, specifying the location where such work or activity is proposed to be performed, the date or dates and time or times where such work or activity is proposed to be performed and such other information as would permit the Mayor to make a determination as to the nature and extent of such work or activity and whether the same should be permitted. Such application shall also be accompanied by any application fee established by resolution of the Board of Trustees.
- D. Where the Mayor determines, upon the information contained in such application, that such work or activity is reasonably necessary and cannot reasonably be performed at any other time at which it would create a lesser disturbance and would reasonably conform to the peace and quiet of the village and the inhabitants therein, the Mayor may issue such permit.
